SBOA Schools

Class X in SSLC

Madurai, Tamil Nadu, India

June 2021 – March 2022

EXPERIENCE

FullStack Intern

Flyers Soft Pvt Ltd.

June 2025

Chennai, Tamilnadu, India

- As a Full-Stack Developer Intern, I engineered a client-project resource management system using the MERN stack (Next.js), transforming abstract requirements into a scalable digital solution.
- Developed scalable modules and implemented core CRUD workflows based on real client requirements.

Freelancer(FullStack-MERN)

V-Strong Gym website

Dec. 2024

Tamilnadu, India

- Designed and developed a gym website with a landing page(with details of the gym) and admin functionalities to add, edit, and manage members and to generate an invoice and automate it to send it to members' WhatsApp
- Tools And technologies involved are Figma (Designing), Next.js (Frontend), Prisma(ORM), Node.js (backend), MongoDB, Twilio (for messaging services)

PROJECTS

Client-resource management | *Next.js, Express, MongoDB, Node.js*

June 2020 – Present

- On the front end, I built an intuitive Next.js dashboard with dynamic visualizations, enabling users to navigate complex relationships effortlessly. .
- I architected a REST API backend with intricate business logic to manage hierarchical data (clients → projects → resources), ensuring seamless CRUD operations and data integrity.
- The system featured smart resource allocation, automatically matching employees to projects based on tech stacks, salaries, and billing constraints.

V-Strong Gym-website | *Next.js, Node.js, Prisma(ORM), MongoDB*

Dec. 2024

- Attractive Landing page with gym details and information.
- Admin Functionalities: add, edit, and manage members and generate an invoice that is automatically sent it to members through WhatsApp.
- Tools and technologies involved are Figma (for Designing), Next.js (Frontend), Prisma(ORM), Node.js (backend), MongoDB, and Twilio(for messaging services).
